SIX BOOKS FOR THE SICK.

What I Learned After 30 Years.

No money is wanted.

Simply select the book you need.

It is my experience as a specialist of 30 years. In the book I tell how at last I found a way to reach difficult, deep-seated diseases. Thirty years of earnest, ardent tell in hospitals and at bedsides made it possible for me to write those books. The book tells how I perfected my prescription—Dr. Shoop's Restorative. How by scientific experiment I traced out the causes that bring on chronic diseases.

I found invariably that where there was a weakness, the inside nerves were weak. Where there was a lack of vitality, the vital nerves lacked power. Where weak organs were found, I always found weak nerves. Not the nerves commonly thought of, but the vital organs' nerves. The inside—the invisible nerves.

This was a revelation. Then my real success began. Then I combined ingredients that would strengthen, that would vitalize, these nerves.

That prescription I called a restorative. It is known the world over now as Dr. Shoop's Restorative. After that I did not fail to cure one case in each hundred, in the extremely difficult cases, my failures for five years were one in each forty treated. I found cancer incurable. Cancer is for surgery, not medicine.

Then how to get this prescription to sick ones everywhere was my thought. I must announce it in the public press. But, thought I, will they realize the real truth of my discovery, the real power of Dr. Shoop's Restorative? Then a way truth of my discovery, the real power of Dr. Shoop's Restorative? Then a way truth of my discovery, the real power of Dr. Shoop's Restorative? Then a way truth of my discovery, the real power of Dr. Shoop's Restorative? you of a druggist near by who will permit the month's trial. Use the Restorative a month. Then decide. If you say to the druggist, "It did not help me," that will relieve you of any expense whatever. He will bill the cost to me. This is my way of clearing your mind of all doubt as to what Dr. Shoop's Restorative can do.

No matter how prejudiced, you cannot dispute this apsolute security I offer. You cannot resist an offer like this if you are at all sick. If you have a weakness, write me. If you can't do things like you used to do them, tell me about it. Write in confidence. As a physician I will tell you a way to help.
